CREATING THE NEXT

2018 Fall Manufacturing Lunch Seminar Series

Who: All students, industry partners, faculty and staff are invited

What: Enjoy a complimentary lunch with colleagues while listening to speakers covering manufacturing related topics. The schedule for the 2018 Fall Manufacturing Lunch Seminar Series includes:

- » **Monday, September 10 - Marc Weissburg**, Georgia Tech School of Biologic Sciences, “Bio-Inspired Design”
- » **Monday, September 17 - Samantha Kasraie**, Novatech, 3D Printing and Industrial Additive Manufacturing
- » **Monday, September 24 - Jay Sexton**, Center for Development and Application of Internet of Things
- » **Monday, October 1 - Skyler Shuford**, Generation Orbit, “GO1: A Modern Hypersonic Testbed”
- » **Monday, October 15 - Jan Youtie** - Georgia Manufacturing Extension Partnership, “Georgia Manufacturing Survey”
- » **Monday, October 22 - Dave Beck**, Foundry 45, “The ROI of VR Training for Manufacturing with Real World Examples from Fortune 500 businesses”
- » **Monday, October 29 - Wayne Book**, Institute for Robotics and Intelligent Machines, “Addressing Gaps in Robot Capabilities for Manufacturing”
- » **Monday, November 5 - Devin K. Brown**, senior research engineer, GT Institute for Electronics and Nanotechnology (IEN), “Nano and Micro Fabrication Manufacturing Technology Capabilities at Georgia Tech”
- » **Monday, November 12 - Suman Das**, Georgia Tech School of Mechanical Engineering, “Advanced 3D Printing of Ceramics”

When/Where: All sessions begin at 12 p.m. at the Georgia Tech Manufacturing Institute, Room 114. Registration is not required.
